Certainly if you know many people how. People who move around a cell without being arrested, who wake up every day knowing that everything will be the same as yesterday, as well as the map, people who even though they are alive feel dead. This is the story of a man who was able to understand what they imagined every night under the bands: start all over again. He did it, but he paid a very high price. But if you really want to know how much this novel's argument is, look at your left wing, there's everything. This novel did not receive any known literary prize, even with an unknown.
